LEED-ND: A New Rating System for Neighborhood Development

Presented by: USGBC-NJ & CNU-NJ

**To be held at: NJHMFA Headquarters
637 South Clinton Avenue
Trenton, NJ 08650**

The new LEED-ND rating and certification system represents a breakthrough in acknowledging the major role neighborhood context plays in determining the environmental impact of construction. Combining the principles of green building, new urbanism, and smart growth, the system builds or rebuilds “green,” walkable neighborhoods where housing mixes with shops, offices, parks, and other amenities and buildings incorporate green features and techniques. To learn more about LEED-ND, visit cnu.org/leednd.

Join us at this presentation brought to you in a partnership between the USGBC-NJ and the CNU-NJ. Continental breakfast will be served.

\$20 for members of CNU-NJ, USGBC-NJ, or Sustainable NJ; \$25 for all others.

\$10 increase at door. pre-register today!
