At the direction of Secretary Valentine, DMV is continuing the closure of customer service centers and suspension of routine DMV 2 Go and DMV Connect operations until at least April 23, 2020. In addition, we are closing all weigh stations for the same duration. Our coworkers in face-to-face customer service operations simply cannot accommodate mandated social distancing or the maximum 10-person gathering rule in standard operations.

The same procedures we enlisted at the beginning of the CSC closures on March 18 for pay and eTime will continue. Field employees may be called upon to fill-in at headquarters or conduct transactions remotely – in a setting with proper social distancing protocols in place. Supervisors will notify you at the appropriate time.

For those of you who can access the DMV intranet, I encourage you to check the COVID-19 page regularly for updates.
